Terms and Conditions
(Unless otherwise specified)

1. **General:** When the State Purchasing Agent or his/her designee issues a purchase document in response to the Vendor's bid, a binding contract is created.
2. **Variation in Quantity:** No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process and then only to the extent, if any, specified in this order.
3. **Assignment:**
 - a. Neither the order, nor any interest therein, nor any claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in Subparagraph 3b or as expressly authorized in writing by the State Purchasing Agent or his/her designee. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.
 - b. Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this bid are hereby assigned to the State.
4. **State Furnished Property:** State furnished property shall be returned to the State upon request in the same condition as received except for ordinary wear, tear and modifications ordered hereunder.
5. **Discounts:** Prompt payment discounts will not be considered in computing the low bid. Discounts for payment within twenty (20) days will be considered after the award of the contract. Discounted time will be computed from the date of receipt of the merchandise invoice, whichever is later.
6. **Inspection:** Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for nonconformance with specifications shall be removed at the Vendor's risk and expense, promptly after notice of rejection.
7. **Inspection of Plant:** The State Purchasing Agent or his/her designee may inspect, at any reasonable time, the part of the Contractor's, or any subcontractor's plant or place of business, which is related to the performance of this contract.
8. **Commercial Warranty:** The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives for such to any customer for such supplies or services. The rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other clause of this order. Vendor agrees not to disclaim warranties of fitness for a particular purpose of merchantability.
9. **Taxes:** The unit price shall exclude all state taxes.
10. **Packing, Shipping and Invoicing:**
 - a. The State's purchasing document number and the Vendor's name, user's name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipments. The user's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.
 - b. The Vendor's invoice shall be submitted duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit price and extended totals. Separate invoices shall be rendered for each and every complete shipment.
 - c. Invoices must be submitted to the using agency and NOT the State Purchasing Agent.
11. **Default:** The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendor's default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Vendor,

State of New Mexico
General Services Department
Purchasing Division
Price Agreement #: 60-000-15-00032

Page-3

such causes include but are not restricted to, acts of God or the public enemy, acts of the State or Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.

12. **Non-Collusion:** In signing this bid the Vendor certifies he/she has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this offer submitted to the State Purchasing Agent or his/her designee.

13. **Nondiscrimination:** Vendor doing business with the State of New Mexico must be in compliance with the Federal Civil Rights Act of 1964 and Title VII of the Act (Rev. 1979) and the Americans with Disabilities Act of 1990 (Public Law 101-336).

14. **The Procurement Code:** Sections 13-1-28 through 13-1-99 NMSA 1978, imposes civil and criminal penalties for its violation. In addition the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

15. All bid items are to be NEW and of most current production, unless otherwise specified.

16. **Payment for Purchases:** Except as otherwise agreed to: late payment charges may be assessed against the user state agency in the amount and under the conditions set forth in Section 13-1-158 NMSA 1978.

17. **Workers' Compensation:** The Contractor agrees to comply with state laws and rules pertaining to Workers' Compensation benefits for its employees. If the Contractor fails to comply with Workers' Compensation Act and applicable rules when required to do so, this Agreement may be terminated by the contracting agency.

18. Bids must be submitted in a sealed envelope with the bid number and opening date clearly indicated on the bottom left hand side of the front of the envelope. Failure to label bid envelope will necessitate the premature opening of the bid in order to identify the bid number.

19. **Contractor Personnel:** Personnel proposed in the Contractor's written proposal to the Procuring Agency are considered material to any work performed under this Price Agreement. Once a Purchase Order or contract has been executed, no changes of personnel will be made by the Contractor without prior written consent of the Procuring Agency. Replacement of any Contractor personnel, if approved, shall be with personnel of equal ability, experience, and qualifications. The Contractor will be responsible for any expenses incurred in familiarizing the replacement personnel to insure their being productive to the project immediately upon receiving assignments. Approval of replacement personnel shall not be unreasonably withheld. The Procuring Agency shall retain the right to request the removal of any of the Contractor's personnel at any time.

20. **Subcontracting:** The Contractor shall not subcontract any portion of the Price Agreement without the prior written approval of the Procuring Agency. No such subcontracting shall relieve the Contractor from its obligations and liabilities under this Price Agreement, nor shall any subcontracting obligate payment from the Agency.

21. **Records and Audit:** The Contractor shall maintain detailed time and expenditure records that indicate the date, time, nature, and cost of services rendered during this Price Agreement's term and effect, and retain them for a period of three (3) years from the date of final payment under this Price Agreement. The records shall be subject to inspection by the Agency, State Purchasing Division, Department of Finance and Administration, and for Information Technology contracts, State Chief Information Officer. The Agency shall have the right to audit billings, both before and after payment. Payment for services under this Price Agreement shall not foreclose the right of the Agency to recover excessive or illegal payments.

22. The foregoing requirements for Contractor Personnel, Subcontracting, and Audit shall be inserted into all subcontracts from the prime contractor to the subcontractor.

New Mexico Employees Health Coverage

A. If Contractor has, or grows to, six (6) or more employees who work, or who are expected to work, an average of at least 20 hours per week over a six (6) month period during the term of the contract, Contractor certifies, by signing this agreement, to have in place, and agrees to maintain for the term of the contract, health insurance for its New Mexico Employees and offer that health insurance to its New Mexico Employees if the expected annual value in the aggregate of any and all contracts between Contractor and the State exceeds \$250,000 dollars.

B. Contractor agrees to maintain a record of the number of its New Mexico Employees who have (a) accepted health insurance; (b) declined health insurance due to other health insurance coverage already in place; or (c) declined health insurance for other reasons. These records are subject to review and audit by a representative of the state.

C. Contractor agrees to advise all of its New Mexico Employees of the availability of State publicly financed health care coverage programs by providing each of its New Mexico Employees with, as a minimum, the following web site link to additional information: <http://www.insurenwnewmexico.state.nm.us/>.

D. For purposes of this Paragraph, the following terms have the following meanings:

- (1) "New Mexico Employee" means any resident of the State of New Mexico employed by Contractor who performs the majority of the employee's work for Contractor within the State of New Mexico, regardless of the location of Contractor's office or offices; and
- (2) "offer" means to make available, without unreasonable restriction, enrollment in one or more health coverage plans and to actively seek and encourage participation in order to achieve the goals of Executive Order 2007-049. This could include State publicly financed public health coverage programs such as *Insure New Mexico!*

New Mexico Pay Equity Initiative

Contractor agrees, if it has ten (10) or more New Mexico employees OR eight (8) or more employees in the same job classification, at any time during the term of this contract, to complete and submit the PE10-249 form on the annual anniversary of the initial report submittal for contracts up to one (1) year in duration. If contractor has (250) or more employees, contractor must complete and submit the PE250 form on the annual anniversary of the initial report submittal for contracts that are up to one (1) year in duration. For contracts that extend beyond one (1) calendar year, or are extended beyond one (1) calendar year, contractor also agrees to complete and submit the PE10-249 or PE250 form, whichever is applicable, within thirty (30) days of the annual contract anniversary date of the initial submittal date or, if more than 180 days has elapsed since submittal of the last report, at the completion of the contract, whichever comes first. Should contractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor agrees to provide the required report within ninety (90) days of meeting or exceeding the size requirement. That submittal date shall serve as the basis for submittals required thereafter.

Contractor also agrees to levy this requirement on any subcontractor(s) performing more than 10% of the dollar value of this contract if said subcontractor(s) meets, or grows to meet, the stated employee size thresholds during the term of the contract. Contractor further agrees that, should one or more subcontractor not meet the size requirement for reporting at contract award but subsequently grows such that they meet or exceed the size requirement for reporting, contractor will submit the required report, for each such subcontractor, within ninety (90) days of that subcontractor meeting or exceeding the size requirement. Subsequent report submittals, on behalf of each such subcontractor, shall be due on the annual anniversary of the initial report submittal. Contractor shall submit the required form(s) to the State Purchasing

State of New Mexico
General Services Department
Purchasing Division
Price Agreement #: 60-000-15-00032

Page-5

Division of the General Services Department, and other departments as may be determined, on behalf of the applicable subcontractor(s) in accordance with the schedule contained in this paragraph. Contractor acknowledges that this subcontractor requirement applies even though contractor itself may not meet the size requirement for reporting and be required to report it self.

Two (2) copies of the Pay Equity Worksheet shall be submitted prior to Award by the prospective Awarded Vendor.

The PE10-249 and PE250 worksheet is available at the following website:
http://www.generalservices.state.nm.us/statepurchasing/Pay_Equity.aspx

Statewide Price Agreement

Article I – Statement of Work

Under the terms and conditions of this Price Agreement all State of New Mexico agencies, commissions, institutions, political subdivisions and local bodies allowed by law may issue orders for items and/or services described herein. The terms and conditions of this Price Agreement shall form a part of each order issued hereunder.

The items and/or services to be ordered shall be as listed under Article IX - Price Schedule. All orders issued hereunder will bear both an order number and this Price Agreement number. It is understood that no guarantee or warranty is made or implied by the New Mexico State Purchasing Agent, his/her designee or the user that any order for any definite quantity will be issued under this Price Agreement. The Contractor is required to accept the order and furnish the items and/or services in accordance with the articles contained hereunder for the quantity of each order.

Article II – Term

The term of this Price Agreement, for issuance of orders, shall be as indicated in the specifications.

Article III – Specifications

Items and/or services furnished hereunder shall conform to the requirements of specifications and/or drawings applicable to items listed under Article IX-Price Schedule. Orders issued against this schedule will show the applicable Price Agreement item(s), number(s), and price(s); however they may not describe the item(s) fully.

Article IV – Shipping and Billing Instructions

Contractor shall ship in accordance with the following instructions: Shipment shall be made only against specific orders which the user may place with the Contractor during the term; The Contractor shall enclose a packing list with each shipment listing the order number, price agreement number and the commercial parts number (if any) for each item; Delivery shall be made as indicated on page 1. If vendor is unable to meet stated delivery the State Purchasing Agent or his/her designee must be notified.

Article V – Termination

This Price Agreement may be terminated by either signing party upon written notice to the other at least thirty (30) days in advance of the date of termination. Notice of termination of the price agreement shall not affect any outstanding orders.

Article VI – Amendment

This Price Agreement may be amended by mutual agreement of the New Mexico State Purchasing Agent or his/her designee and the Contractor upon written notice by either party to the other. An amendment to this Price Agreement shall not affect any outstanding orders issued prior to the effective date of the amendment as mutually agreed upon, and as published by the New Mexico State Purchasing Agent or his/her designee. Amendments affecting price adjustments and/or the extension of a price agreement expiration date are not allowed unless specifically provided in the bid and price agreement specifications.

Article VII – Issuance of Orders

Only written signed orders are valid under this Price Agreement.

Article VIII – Packing (if applicable)

Packing shall be in conformance with standard commercial practices.

Article IX – Price Schedule

Prices as listed in the price schedule hereto attached are firm.

Price Agreement #: 60-000-15-00032

Page-10

To establish a price agreement for police vehicle equipment, parts and labor. The purpose of the specifications is to establish acceptable products to be installed in New Mexico State Police and other law enforcement vehicles. The equipment categories will include 1) computer stands, consoles, modems, accessories and labor; 2) visual and audio warning systems, parts, supplies and labor; 3) in-car digital camera, equipment and labor; and 4) decals, wraps, stripes, letters and labor. The average order for the above equipment is 60-100 per year.

The term of this price agreement shall be for one (1) year from date of award with an option to extend for a period of up to five (5) additional years, on a year-by-year basis, by mutual agreement of all parties and approval of the New Mexico State Purchasing Director at the same price, terms, and conditions. This agreement shall not exceed six (6) years.

Brand Name or Equal:

The use of a brand name is for the purpose of describing the standard of quality, performance and a characteristic desired and is not to limit or restrict competition.

Ornamentation/Advertising:

The New Mexico State Police or any other agency utilizing this agreement shall in no way be referenced to endorse or advertise any product or service in any manner.

Please note: Vendors must bid specifically as requested in bid specifications. Bidders are encouraged to submit descriptive literature with their bid.

Award:

In order to provide the using agencies with the widest possible variety of goods and services multiple awards may be issued for ALL items. Bid responses must include a firm fixed fully loaded price to include all overhead, shipping and any other associated cost. Determination for award shall be based upon the lowest total cost of each item listed per category or based upon the total lowest cost per category and the bidder's abilities to meet the "minimum and submittal requirements" of the Invitation to Bid, whichever is in the best interest of the State of New Mexico.

Specifications for Computer Stands, Consoles, Modems and Accessories:

Computer stands:

Only **complete** computer stands, with brackets and hardware, will be accepted. Items must be standard production items and may not be specially built for this bid. Bids must be for the complete unit that includes the adjustable major portion of the computer stand. Units must be packaged to protect the stand, brackets and hardware.

Computer Stand Specifications:

1. The stand must be made of a durable heavy duty construction.
2. The computer stand must be designed for proper fit in law enforcement vehicles.
3. Computer mounts to attach to passenger side factory seat bolts.
4. Should have a 9" swing and 9" slide arms to be able to rotate 360 degrees.
5. Designed to extend a minimum of 8"
6. Designed to allow computer mount to be centered over console, out of passenger area.
7. Pivot mount bolted to slide arm for docking stations, laptops, keyboards and 2 piece computers.

State of New Mexico
General Services Department
Purchasing Division
Price Agreement #: 60-000-15-00032

Page-11

8. Must have support brace to minimize vibrations.

Consoles:

Consoles must be able to contain and protect wiring and equipment installed in the equipment consoles. (Installed equipment to include but not be limited to: lighting controls, siren, radio, and other controls as applicable).

Only **complete** consoles with faceplates, brackets and hardware, will be accepted. Bids must be for the complete unit that includes the adjustable major portion of the consoles. Units must be packaged to protect the console, faceplates, brackets and hardware.

Console Specifications:

1. The console must contain heavy duty material to withstand police use.
2. The console must be designed for proper fit in police pursuit vehicles and must be compatible with the computer stand.
3. Must have a cup holder, arm rest, map light and accessory power supply.
4. The console must contain the faceplates, brackets and hardware.

Modems:

Only **complete** modems, with connecting cables and mounting hardware, will be accepted. Items must be standard production items and may not be specially built for this bid. Bids must be for the complete unit that includes the adjustable major portion of the modem. Units must be individually packaged to protect the modem, cables and hardware.

Modem Specifications:

1. The modem must contain an Ethernet Interface with DC power cable.
2. The modem antenna must be dual band and bolt mount.
3. The modem must come with all needed Ethernet Cables and hardware.

Specifications for Visual and Audio Warning Systems, Parts, Supplies and Labor:

All items bid in this category shall conform to the Society of Automotive Engineers (SAE) or California Code Certifications, Title 13.

When an item is identified by manufacturer's name, trade name, catalog number or reference, it is the responsibility of the bidder to document brand name equals in the space provided for each item or to make changes on manufacturer's numbers on each item if the numbers have been changed.

These specifications are for vehicle-mounted roof lights, vehicle-mounted rear deck lights, LED light systems, directional light controls, sirens, and speakers. The systems must be suitable for mounting in or on high speed emergency vehicles operated by New Mexico Department of Public Safety and other New Mexico law enforcement and public safety agencies.

Acceptable Equipment:

Only **complete** equipment, consisting of the lighting system, lenses, covers, mounting brackets, and power and/or control cable will be accepted. All items offered shall be standard production models of the manufacturer and except for configuration, may not be built especially for this bid request. Repair parts must be readily available to New Mexico Department of Public Safety or user agency/entity without unreasonable delay. No additional charges will be accepted. All prices bid per unit **shall** include all delivery charges to the purchaser's place of business within the State of New Mexico. The successful bidder shall be authorized by the manufacturer and required to: offer warranty repair service when requested by the end user; stock repair parts and finished products locally in the State of New Mexico.

Specifications for Light-Emitting Diode (LED) Light Bar and LED lights:

This specification describes the minimum requirements for visual warning system for emergency vehicles. The light bar shall utilize reflector LED-based technology and reliable onboard circuitry manufacturing design. The light bar must be capable of removal without disassembly of the interior components for ease of service or repair. The light bar must be compatible with current Department of Public Safety equipment.

Light Bar:

LED heads shall consist of reflector modules utilizing most current technology. Each module shall be offset, use a compound curve and polished-reflector design and shall contain at least twelve (12) diodes, projecting downward into the reflector assemblies. Modules shall be available in red, white, blue and amber LEDs, chosen by user agency. Each light bar shall contain at least twenty-two (22) reflector modules, with a total of three hundred and twenty-four (324) most current lamp diodes. Microprocessor controls shall be utilized to provide a total of twenty-eight (28) user-selectable flash patterns, including an intersection mode and a low-power "dim" mode. The light bar must contain three (3) prioritized modes of operation with mode 3 the highest priority. Mode 3 will override mode 2 and mode 2 will override mode 1. Each of the three modes will provide preset flash patterns that can be activated for various stages of the emergency vehicle's warning light levels of operation. Modules shall be field-replaceable and shall meet SAE J595 light output, SAE 1113/41 RFI, and SAE J845 standards. No exceptions will be allowed.

Alley Lights:

Alley lights shall be integrated into the light bar. Each module shall contain at least twelve (12) diodes on the driver and passenger side. No exceptions will be allowed.

Flood Lights:

Flood lights shall be 360 degrees visibility and integrated in the light bar. Each module shall contain at least six (6) diodes and be white LED. No exceptions will be allowed.

Construction:

The Light Bar shall be a single piece, polycarbonate, based on a minimum 1/8" thick extrusion that shall provide strength without excessive weight. Housing shall be molded polycarbonate for durability. Colors (clear, red, blue or amber) shall be specified by user agency. The dome shall be secured with barrel nuts and shall use "O" rings for a water proof seal.

Mounts:

State of New Mexico
General Services Department
Purchasing Division
Price Agreement #: 60-000-15-00032

Page-23

A pair of stainless steel installation brackets, vehicle specific, shall be included. The mounting brackets must allow for height and pitch adjustment. Mounting legs must be adjustable for distance to allow for differing roof lines. No exceptions will be allowed.

Dimensions:

The Light Bar must be no more than 2" in height, no less than 10" in width, and 44" in overall length. 51" overall length light bar for trucks and large SUVs with the same height and width.

Warranty:

The warranty period shall be five years parts replacement, one year labor.

Specifications for siren/light control:

This specification describes the minimum requirements for a siren/switching/public address combination for emergency vehicles. The system shall be compatible with 12 Volt DC, negative ground vehicles, two-way radios, vehicle lighting and speakers. The system shall be compatible with current department of public safety equipment.

Construction:

The control should be a programmable siren/light controller with remote mount amplifier and have a programmable illuminated push button with three position slide switch with built-in traffic control and display capability. It should have a minimum of fourteen solid state relays and external fuses. It should be capable of using a Cat5 siren controller and light bar. It shall contain directional warning capability.

Sounds:

System shall have siren sounds and non-siren sounds. The siren sounds shall include manual, wail, and yelp. Manual shall consist of a tone that rises as the vehicle's horn button or the siren's manual button is pressed. Momentary application shall produce a brief burst. Wail and yelp shall provide tones that automatically rise between 500 Hz and 1650 Hz eleven times per minute. Frequencies below 500 Hz shall be eliminated to avoid speaker damage. Non-siren sounds shall include an air-horn type sound at 1000 Hz, a choice of two high/low alternating 600 Hz and 1350 Hz sounds, and a hetro sound. The system shall offer an alarm input for K9 or burglar alarm uses.

Siren Operation:

System shall stop siren when vehicle is shifted into park, but allow continued operation of public address and lighting circuits. System shall allow either a five-second override (change of tone for five seconds when horn button or manual switch is pressed), lock (tone is changed when horn button or manual switch is pressed and changed back upon pressing again), or sweep (siren cycles through three siren sounds every six seconds upon pressing horn button or manual switch, returned to normal operation upon pressing again).

Public Address:

The public address system shall provide inputs for radio and microphone audio. The included microphone can be dedicated for P.A. or can be common between radio and P.A. system. The output power shall be 50 Watts 400 Hz to 10K Hz with less than 10% harmonic distortion. Volume shall be established with three fixed settings via two externally accessible potentiometers.

Electrical:

Total switching system capacity shall be 205 Amperes. The system shall have a slide switch with the following functions: five sequenced circuits for warning light control having a total capacity of 60 Amperes; lever positions 1 & 2 shall turn on warning lights without siren, position 3 shall activate siren also; lever position 3 shall transfer horn ring for siren control (use of external relays is unacceptable; the slide switch shall be rated at 800,000 cycle life. Accessory switches shall provide the following functions from left to right: takedown control (30 Ampere capacity), brake and backup light cutoff (two separate circuits at 30 Ampere capacity each), right and left alley light control (30 Ampere each), auxiliary control (fourth, up position, 30 Ampere capacity), gun-lock (fourth, down position) release with optional plug-in 9-second timer. Siren and accessory selector switches shall have 50,000 cycle life rating; accessory switch relays

State of New Mexico
General Services Department
Purchasing Division
Price Agreement #: 60-000-15-00032

Page-24

shall have a life rating of 500,000 cycles and be rated for 30 Amperes each. Indicator lights shall have a life rating of 100,000 flashing hours, while panel lights shall have a life rating of 16,000 hours.

Warranty:

Electronic components shall be warrantied for five years. Switches, panel lights, hardware, and non-electronic parts shall be warrantied for three years.

Specifications for rear deck warning light:

This specification describes the minimum requirements for a rear, low profile, deck warning light, capable of mounting in the rear deck of emergency vehicles. The system must be supplied with a universal mounting kit for mounting in department of public safety vehicles. The system shall be compatible with 12 Volt DC systems and current department of public safety equipment.

Construction:

The system housing shall be constructed of a durable material to withstand heavy duty activities. It must have a minimum of eight reflectors containing at least three LED Diodes. The system shall be capable of operation in temperatures from -30 degrees c to 65 degrees c and weight no more than 4.2 lbs. (shipping weight).

Electrical:

The system must draw no more than 4.68 Amperes and operate at 12.8 Volts DC. It must comply with FCC part 15, SAE 113/41 RFI, SAE J595, and SAE J2498.

Warranty:

Warranty period shall be five years parts, one year labor.

Specifications for LED Corner Inserts:

This specification describes the minimum requirements for a LED inserts consisting of at least nine LEDs per head designed for installation in existing light housings of emergency vehicles. The system must be capable of cloning other identical systems to the same configuration with a cloning cable while only one is powered to save installation time. The system shall offer a built in power supply, reverse polarity protection and the system must be water proof. Light head dimensions shall be no bigger than 1.5" in base by 1.0" in width. Equipment must be compatible with current department of public safety equipment.

Electrical:

System shall operate at full power from 12-30 Volts DC. It shall operate at reduced power from 7-12 Volts DC. The system shall require no more than 7 Amperes at 12 Volts DC and have standby current of no more than 6.5mA.

Warranty:

Product shall be warrantied for five years, except strobe tubes, which shall be warrantied for one year.

Patrol Vehicle In-Car Digital Camera and Equipment

The camera must be capable to be record / play back within the unit as well as be able to record many different traffic stops without interruptions. The digital camera must be able to operate in extreme cold as well as hot conditions. The camera should be able to record all actions performed by an officer while engaged in high-speeds and to not skip when being driven on rough roads.

The camera shall, in all aspects, meet or exceed all requirements of the federal government for the year and model bid. The camera shall include all standard equipment and components normally sold and marketed to the retail public.

Illustrative and Technical Data:

Bidder must submit with bid packet two (2) sets of illustrative product brochures and all technical data identifying all equipment included with the digital camera including performance and specifications.

Repair Parts:

It is the responsibility of the contractor supplying the video unit to ensure an adequate stock of all parts, regular and special parts to meet the continuing service and repair needs of the New Mexico State Police and/or user agency without undue delay. All repair parts must be received within seventy-two (72) hours of Purchase Order receipt.

Technical Information:

The successful bidder shall provide the following technical information prior to the delivery of the first camera delivery:

- A. Service Shop Manual covering all aspects of the Digital Camera (covering all components) eight (8) copies.
- B. Two Owner's Manuals (with the warranty provisions).

Video Systems and requirements:

A. Performance Testing and Product Evaluation: The emphasis of the testing will be on recording quality while subjected to outside interference from the following systems, but not limited to:

1. High powered television stations.
2. Other radio frequency interference sources including UHF, VHF, and HF transmitters.
3. Automobile alternator, ignition and electrical systems.
4. Automobile air conditioner fan motor.
5. High voltage power lines, traffic signals, neon signs, etc.

The agency reserves the right to have the digital video system examined by any other qualified agency, for acceptable design, construction fabrication and assembly methods.

B. Patent Infringement. The seller shall indemnify and save harmless the agency and all persons acting for or on their behalf from all suits and claims against them, or any of them, arising from or occasioned by the use of any material, equipment, or apparatus, or any part thereof, which infringes or is alleged to infringe on any patent rights. In case such material, infringement, the Seller, within a reasonable time, will at its expense and as the agencies may elect, replace such material, equipment or apparatus with non-infringing material, equipment, or apparatus, or remove the material, equipment, or apparatus and refund the sums paid therefore.

C. The bidder shall state manufacturer and model number of the recorder, camera, monitor and wireless microphone.

Video System Specifications/System Description:

Overall Description of Digital System:

The digital patrol car surveillance system shall consist of a mounted miniature camera, ruggedized recorder, and overhead control center with compact monitor, and wireless microphone to provide digital audio and video recording of traffic stops, pursuits, D.U.I. tests, etc.

Video authentication shall be provided by a time-stamp embedded in the video. This time-stamp information shall be recorded in a proprietary format that cannot be duplicated outside the vehicle to ensure any attempts to alter the video are detected. Proprietary software designed to detect and reveal alterations to video files shall be supplied.

The miniature camera shall be Charged Coupled Device (CCD) type, and shall be capable of operating in extreme weather conditions. Its small size shall not obstruct the driver's field of view.

The overhead control center shall be mounted within easy reach of the driver's seat, and give the officer the ability to review recorded segments. The system shall also protect recorded segments to insure they are not recorded over.

The wireless microphone shall allow audio recording of events inside/outside the car. The microphone supplied shall be ready to operate on two frequencies that can be selected using the transmitter's power switch.

All cables and hardware required for installation and operation shall be supplied.

Each digital in-car video system shall be capable of interfacing with compatible traffic radar units. Target and patrol speeds shall be displayed on the monitor, and recorded on the digital media simultaneously with the video being recorded by the camera.

Color Camera Specifications:

The CCD camera shall be high resolution, full color with an auto iris, fixed focus, and motorized zoom lens. The motorized zoom lens shall offer a minimum of 10X optical zoom. The camera shall include auto and manual focus capabilities, auto white balance and backlight compensation.

The camera shall house the video system's external record/microphone indicator. This indicator shall consist of an LED built in to the front of the camera's housing to indicate to an officer outside the vehicle that the recorder is recording, and that audio from the wireless transmitter is being received.

The auto iris lens shall automatically adjust for varying light levels from day to night. The use of electronic shuttering to adjust for varying light levels shall not be acceptable.

The camera shall be capable of mounting within the Overhead Control Center or outside the Control Center using a heavy-duty, spring loaded, dual-ball pivot mount. The dual-ball mount shall allow the camera to be easily positioned, rotated 360° and secured in place without tools.

Video Compression and Recording Specifications:

The digital video system shall be capable of supporting either a SD card or hard disk drive (HDD). The drive shall be housed in an enclosure that is secure.

The following record times shall be achievable on a 40 GB HDD or 40 GB SD card:

High resolution mode – 52 hours,
Normal resolution mode – 73 hours,
Low resolution – 91 hours 20 minutes.

The system shall include a buffer memory for pre-event recording. This buffer shall be capable of capturing at least 60 seconds of video prior to the recorder being activated.

The digital recorder shall have an operating temperature range of 20°F to 120°F (-7°C to 49°C). When packaged in the environmentally controlled vault, the recorder shall be capable of operating in temperatures ranging from -20°F to 150°F. (-29°C to 66°C)

Maximum Security Vault Specifications:

The digital recorder shall be mounted in an environmentally controlled, tamper resistant, security vault. The vault shall include a recessed key lock to allow the agency control access to the recorder and digital media. An option shall be available to restrict access to the systems set-up menu.

The video system shall draw no more than 12 amps @ 12 VDC with both recorder and environmental system operating. In normal operation, the system shall draw approximately 2 amps.

Overhead Controls Specifications:

All system controls and the system monitor shall be packaged in an overhead mounted integrated controller.

If mounted in a pursuit rated or special service car or pickup, the overhead control center's mounting bracket shall not require any holes or cuts to be made in the vehicle's headliner.

The control center shall be designed so that controls for power, record, stop and auto zoom are the most prominent buttons on the control center. All controls shall be identified with back-lighted legends for night operation.

The system shall allow a second camera to be added without requiring hardware or software changes. The control center shall include a camera switch that is used when the system is equipped with two cameras. This switch shall have no effect when the system is equipped with one camera. This shall ensure video from the single camera will be seen, regardless of the camera switch's position.

The overhead control center shall accommodate an optional miniature rear-facing camera. The lens shall offer a fixed-focus wide-angle lens sufficient to cover the back seat area. No adjustment of this camera shall be required.

The control center shall have a frequency switch for the wireless microphone system's receiver. This switch shall allow the operator to easily select from the two microphone frequencies available.

The control center shall have the ability to start the recorder from outside the car using the wireless microphone.

Control center features shall include:

- A. Power on/off.
- B. Record start/stop.
- C. Video review: play, previous file, next file, pause, rewind, fast forward.
- D. On-screen rewind and fast forward (Search).
- E. Zoom wide/tele.
- F. Auto zoom.
- G. Digital auto zoom. The control center shall allow the operator to select whether the camera's digital zoom is used during auto zoom.
- H. Focus auto/manual.
- I. Backlight compensation.

The control center shall include a set-up menu that shall include the following features/options:

- A. User Friendly Access – Pressing any switch on the monitor shall access the main menu. Menu access and entry shall not require a separate programmer or external device.
- B. Limiting Menu Access - A method shall be available to limit access to the menu. If this method is selected, a key shall be required to gain access to the set-up menu.
- C. Time and Date Generator - Records time on the tape in hours, minutes and seconds.
- D. Time and Date Position - The time and date shall be capable of being placed at the top or bottom of the screen.
- E. Time and Date Format - Three time and date formats shall be available through the Set-Up Menu: MM/DD/YY, DD/MM/YY, and MM/DD/YYYY.
- F. Flash Preference - The set-up menu shall allow the operator to set the display to flash every 60 seconds or to remain steady. Flashing the display prevents it from covering important details in the scene.
- G. Selectable Resolution - Three resolution modes shall be available through the Set-Up Menu.
- H. Auto Zoom Positions - The telephoto and wide angle positions used for Auto Zoom shall be adjustable through the Set-Up menu.

The control center shall include the speaker used to activate the optional automatic audio transmitter.

The control center shall provide a connector for a radar interface to compatible radar showing target and patrol speeds to document tracking history. Operational messages shall also be recorded: RFI hold, crystal error, and low voltage. The video system shall be capable of directly communicating with radar products, without the use of a separate translator device.

Color Monitor Specifications:

A high quality active matrix color LCD monitor shall be provided for focusing the camera and for continuous viewing.

The monitor shall mount in the overhead control center on a swivel mount that allows it to be recessed up into the housing or swing down and swivel side-to-side for the best viewing angle. It shall include a soft rubber outer shell to prevent the operator from contacting hard and/or sharp corners. Controls shall be provided for power/volume and brightness.

The monitor's screen shall be non-reflective for optimum viewing in the vehicle. Mirror-like reflective screens shall not be acceptable. The screen size shall be no smaller than 3" and no larger than 4" measured diagonally. The monitor's dimensions shall not exceed 4.55" x 3.45" x 2.25" w/h/d (11.5 x 8.8 x 5.7 cm w/h/d). The monitor's weight shall not exceed 1 lb. (.71 kg).

The monitor's audio shall be played over two 1.5" speakers. The total audio output of these speakers shall be no less than 200 mW (14.4 ohms). Audio and video monitoring shall be possible whether or not the system is recording.

The monitor shall be capable of displaying:

- A. Time and date
- B. Emergency lights indicator (L)
- C. Siren indicator (S)
- D. Microphone reception indicator (M)
- E. Brake use indicator (B)
- F. Target and patrol speeds from radar

High Performance Audio Transmitter/Receiver Specifications:

The wireless microphone system shall be compact and lightweight, and easily attach to the officer's uniform. It shall include a right-angle modular plug that easily detaches from the transmitter. Hard wired microphones shall not be acceptable. Transmitter shall be capable of operating 8-10 hours on one battery.

An optional upgrade shall be available to vary the transmitter's primary frequency, allowing multiple vehicles to operate their transmitters at the same scene without interference.

The receiver shall be mounted in the recorder enclosure for convenient access to the trunk mounted (or patch) antenna.

A hard wired in-car microphone shall be available to record conversations inside the patrol vehicle simultaneously with conversations recorded with the wireless mic. The in-car microphone shall mount inside the passenger compartment, and be controlled by a switch integrated with the Control Center.

Operating Instructions and Specification Manual:

A full and complete set of operating instructions shall be furnished by the contractor with each unit.

Manufacturer's Quality Control and Testing:

All electrical components utilized, including integrated circuits, shall be a high reliability commercial grade part. Each individual electrical and electronic component shall be subjected to a complete quality control inspection. This is required before installation into printed circuit board or other sub-assembly.

All assembled printed circuit boards and sub-assemblies shall be thoroughly inspected and completely tested mechanically and electrically before installed into video system. All printed circuit boards shall be glass epoxy, type FR4 or equivalent. Also, all high-density circuit boards shall be the solder mask type.

All components dissipating power in excess of one watt and mounted directly against a circuit board shall have adequate heat sinks for circuit board protection. All electronic and electrical components shall only be utilized within their manufacturer's operating specifications, pertaining to voltage, current and heat dissipation characteristics.

Each complete video system shall be individually bench tested for all functions and test parameters.

Warranty:

The manufacturer shall at a minimum fully guarantee the digital patrol car video systems to be free of defects in materials and workmanship for a period of one year from the date of delivery to the agency. This warranty shall not extend to finish, appearance items, or malfunction due to abuse, neglect, misuse, accidents, or operation under other than specified conditions.

Vehicle Wraps and Decals

This category describes services, materials and specifications for marking police vehicles which includes: 1) designing/creating new designs and modifying existing designs, 2) furnishing and installing decals and wraps on various vehicles as required, 3) miscellaneous repairs on previously decaled or wrapped vehicles as needed.

Design Services:

Includes all services regarding creation of new designs, setup, proofing and editing of existing designs at a set hourly rate.

Standard Specifications:

Decals applied to police vehicles shall be high performance, high quality materials with a minimum manufacturer's warranty. The product thickness, color, strength, reflectivity and adhesion must be able to withstand weather and usage common to law enforcement and municipal vehicles. The product should be able to remain intact with minimal damage under conditions normally withstood by the vehicles paint and surface preparation.
